August 11, 2008

I am pleased to announce the acquisition of ASR Services, Inc. of Louisville, KY.

ASR Services was founded in 1994, and is owned by Reid & Lori Jones. ASR Services specializes in light manufacturing and kit assembly operations, such as vacuum forming, stamping, sonic welding, bagging, sorting and many other operations. For more than 14 years, ASR Services has committed themselves to the highest standards of customer satisfaction, while doing the jobs that their customers found difficult or impossible to do on their own.

Kyana Packaging & Industrial Supply is a distributor in our 32nd year of operations. In acquiring ASR Services, we will greatly expand the products and services that we can offer to our current customers, while maintaining the highest standards of production and customer support that ASR Services customers have known for years. This acquisition will greatly expand ASR Services foot print within the region, while also offering the opportunity for expanded production, by integrating ASR Services administrative, customer service, purchasing and distribution functions into our existing framework.

I am greatly pleased that Reid and Lori Jones will be joining our staff, as well as the entire ASR Services team. ASR Services will remain at 2420 Ampere Drive in Louisville, KY 40299. Please continue to contact them via telephone at (502) 297-8545 or FAX at (502) 297-0229.

Thank you for your business,

A handwritten signature in black ink, appearing to read "David L. White". The signature is written in a cursive, slightly slanted style.
