

Instapacker™ Tabletop

Foam-in-Place Packaging System

Workstation, Instapak® chemicals and film not included.

Enjoy all the proven benefits and cost savings of foam-in-bag packaging with an affordable, user-friendly Instapak® system.

- **Maximum Value:** This low-cost, foam-in-bag system reduces material and labor costs.
- **Easy to Use:** A simplified touch key control panel virtually eliminates the operator's learning curve.
- **Compact:** Small, innovative design saves valuable workspace.
- **Flexible:** The Instapacker™ Tabletop system supports the packaging needs of shipping rooms, multiple pack station operations and even the production floor.
- **Protective:** Instapak® high-performance packaging foam is designed to protect your products during shipping, warehousing and general handling.

Instapacker™ Tabletop Foam-In-Bag System

Affordable Packaging At The Touch Of A Button

With a minimal investment, the Instapacker™ Tabletop foam-in-bag system will maximize your packaging productivity, reduce your material costs and increase customer satisfaction.

With the simple touch of a button, operators can produce up to 16 foam-filled bags per minute, guided by easy-to-follow graphics on the touch key control panel. To simplify handling, the Instapacker™ Tabletop system utilizes a roll of perforated film with a fixed bag size.

- Simple diagnostic indicators show system status.
- Ten preset touch keys easily control foam amount.

Instapacker™ Tabletop System Specifications

- Produces up to 16 Bags Per Minute
- System Dimensions: 19" x 19" x 28"
- Electrical Power: 208-240 Volt AC, Single Phase Dedicated Circuit

Our Products Protect Your Products®

Here's How It Works

Step 1: Press any one of the 10 preset foam amount keys to dispense a foam-filled bag. Remove the bag of expanding foam by tearing at perforations.

Step 2: The Instapak® foam-filled bag is placed into the carton and the product to be packaged is placed on top of the expanding bag.

Step 3: A top cushion is formed by placing a second Instapak® foam-filled bag on top of the product and closing the carton.
